

Ashu Kumawat

Automation Engineer | PLC & IIoT Specialist

+91 80948 12265 ◇ ashukumawat.auto@gmail.com ◇ Jaipur, Rajasthan ◇ [LinkedIn](#) ◇ [Portfolio](#)

PROFESSIONAL SUMMARY

Automation Engineer specializing in Siemens TIA Portal, PLC programming, and IIoT system integration. Experienced in designing end-to-end automation solutions for heavy industry and large-scale manufacturing. Passionate about smart factory automation, robotics integration, and connected industrial systems.

EXPERIENCE

Automation Engineer

Feb '26 — Present

[Engineers and Engineers\(Electricals\) Pvt Ltd](#)

Jaipur, Raj

- Engineered PLC-based automation systems using **Siemens TIA Portal V20 (S7-1200)**, developing full project architecture from I/O list to final ladder logic for industrial applications.
- Developed motor control sequences and safety interlock logic for industrial automation applications
- Configured Modbus TCP/IP and Profinet communication between PLCs, VFDs, and field devices for real-time data exchange and remote monitoring
- Designed LT panel control systems integrating S7-1200 I/O modules, SIMOCODE PRO, VFDs, ACBs, and SFUs with PLC-based monitoring and protection logic
- Implemented TIA Portal Openness API integration for programmatic project handling, enabling remote automation workflows via Node-RED pipeline

Controls & Automation Engineer

Jun '25 — Jan '26

Voltcube Energy

Jaipur, Raj

- Designed MCC, APFC, ACDB, and AMF panels with integrated PLC-based control and monitoring systems
- Developed control schematics, GA drawings, and power wiring diagrams for industrial automation applications
- Integrated PLC I/O modules and automation logic for enhanced operational control and efficiency

EDUCATION

B.Tech in Electrical Engineering, Jaipur institute of engineering and management (JIEM) (GPA: 7.8/10)

Aug '17 — '21
Jaipur, Raj

PROJECTS

SMOG-100G Dust Suppression System - Mining Application

Aug '25 — Sep '25

- Designed and developed a demo version of the SMOG-100G dust suppression system for mining environments to control airborne dust.
- Prepared complete Panel GA drawings, Control Schematics, and Power Wiring Diagrams.
- Demo was successfully approved by the client, resulting in 500 additional commercial orders for the company.

AUTOMATION & CONTROLS SKILLS :

PLC Platforms Siemens TIA Portal V20 (S7-1200), Allen-Bradley, Delta, OpenPLC.

Protocols : Profinet, Modbus RTU/TCP, PROFIBUS, Ethernet/IP

Technical : PLC programming (Siemens, Delta, and Allen-Bradley), Communication protocols including (RS-232, RS-485 (Modbus RTU & Modbus TCP/IP) and PROFIBUS, HMI (DOPSoft), SCADA (Wonderware), AutoCAD, VFD (Delta- MS300), Panel designing

Soft Skills Attention to detail, Strong interpersonal skills, Critical thinking, Calm and focused under pressure
